

Carnegie Mellon University

Pittsburgh, Pennsylvania

Master of Software Engineering Professional Programs

Now, more than ever, advances in technology demand engineers who can build reliable and trustworthy systems. Taught by top faculty at Carnegie Mellon University's #1 School of Computer Science, you will learn to see the big picture and cut through vast quantities of information, enabling you to skillfully negotiate tough tradeoffs and to build software faster. With multiple programs to choose from, flexible curriculum, and both on-campus and online options, we have a program that will fit your needs. The Master of Software Engineering degree from CMU is a **strategic investment toward your goals**. Find out how we can help you to level up faster and become a recognized leader.

Applications are now being accepted for Spring 2022 enrollment for the MSE online degree, a part-time program designed for working professionals, and for Fall 2022 enrollment for our full-time, in-person programs: the MSE for Professionals, MSE – Scalable Systems, MSE – Embedded Systems and MSE/MBA.

Think **BIGGER.**
