

# Carnegie Mellon University

Pittsburgh, Pennsylvania

## Master of Statistical Practice

Apply today for Carnegie Mellon University's premier professional training in data science.

### Who We Are

Located within the Department of Statistics & Data Science, the Master of Statistical Practice (MSP) is a one-year, two-semester professional master's degree program that provides a broad foundation in the core ideas and skills underlying modern statistics and data science, with emphasis on industry-valued competencies. In the last three years, more than 90% of MSP graduates landed a job within the field of statistics & data science or matriculated into a Ph.D. program within 90 days of graduation.

### What We Do

At the heart of our intensive one-year, two-semester program is a focus on three key areas:

- Professional Skills
- Statistical Computing
- Data Analysis

### How to Apply

Please apply at <http://www.stat.cmu.edu/msp/application>. We accept applications from Oct. 1, 2021, through Jan. 14, 2022. Application Fee waiver: PITTNEWS
