

Master of Science in Business Analytics

Carnegie Mellon University — Pittsburgh

Earn Your MSBA in Just Nine Months

The rise of Big Data is driving demand for professionals with advanced analytics skills and business knowledge. **Carnegie Mellon’s M.S. in Business Analytics (MSBA) program is a STEM-designated program** designed for those who want to deepen their analytical skills and move into sought-after business analyst positions.

You’ll earn an MSBA from the #2 school in Business Analytics (*U.S. News & World Report*) and be equipped with the analytical skills, business knowledge and creative problem-solving expertise to transform data into more insightful thinking and better decisions.

Is This Program Right for You?

Our full-time, nine-month program on Carnegie Mellon’s campus in Pittsburgh is designed for recent college graduates with little or no work experience. **This professional program is a career accelerator** for students with undergraduate degrees in business, economics, engineering, mathematics, information systems and computer science. You’ll gain experiential training in methodology, software engineering, corporate communication and business.

If you master the power of data, you’ll be the person most corporate recruiters want to hire. Employment of data analysts is projected to grow 25% by 2030 (U.S. Bureau of Labor Statistics).

To apply:

Applications are currently being accepted for Fall 2023 enrollment. Contact our admissions team at ftmsba-admissions@andrew.cmu.edu and mention this ad for an application fee waiver.
