

continue your journey

with one of Pitt's graduate engineering programs

The Swanson School of Engineering's robust legacy extends far beyond the city limits. Named a **top 5 metro for STEM professionals for the last 5 years***, Pittsburgh remains at the forefront of the technological future. At Pitt's Swanson School of Engineering, we are committed to providing a quality academic experience for our students and are ranked by *U.S. News and World Report* as **one of the Top 25 Public Graduate Engineering Programs** nationally. With a variety of **PhD, Masters (research and professional), and Graduate Certificate Programs** available, our students learn from world-renowned faculty and advance the field of engineering through research and collaborative relationships with top industry leaders. Programs are available on campus in Pittsburgh and select programs are available online.
